**LIGHTGARDEN W1 / W2**  
INSTALLATION NOTES

**ADesignStudio.**

## ATTENTION!

The safety of this fitting can only be guaranteed if these instructions are observed, during both installation and use. Please retain these instructions.

## REMARKS

- When installing the system, make sure all current national regulations relating to installation are observed.
- When installing and / or working on the fitting, ensure that the power supply has been switched off.
- The fitting may in no way be modified or tampered with. Any modification may compromise safety, causing the appliance to become dangerous. ADesignStudio declines all responsibility for products that are modified.
- This appliance must be connected to an efficient grounding system in order to work safely and correctly.
- Contact a qualified electrician for installation.

## ASSEMBLY INSTRUCTIONS

Caution: to avoid possible electrical shock, make certain electricity is shut off at main panel before wiring.

1. Set out fitting spacing using Architects drawings and / or fitting template.
2. Remote driver to be housed in dry, ventilated and accessible location
3. Make ready fixing holes and rough in cabling from remote driver location to fitting /s. Wire as per remote LED driver to manufacturer recommendations.
4. Make the electrical connections respecting the poles. For exterior installations wire connections are to be IP rated (water tight).
5. Use gloves provided to protect fitting finish.
6. Fasten the body of the fitting to the wall with x3 counter sunk screws.

## CLEANING INSTRUCTIONS

Warning: Do not use alcohol or other solvents. Use only a soft cloth to clean the appliance.
