COAST W2 - HONEY ONYX

The Coast and Cove collection explores the interplay of form, material, and light through a sculptural lens. Crafted in collaboration with renowned designer Adam Goodrum, this series of wall lights showcases a refined balance between strength and delicacy.

Solid brass and stainless steel options highlight precision and permanence, while hand-selected Marble and Onyx introduce organic beauty, each piece revealing its own unique veining and natural translucency. Designed for both interior and exterior spaces, these lights bring a sense of quiet elegance to any setting.

Each carved stone piece is shaped by natural geological forces—pressure, time, and temperature—resulting in distinct grain and patterning. These variations offer quiet individuality and material depth, reflecting nature’s role in every detail. No two are the same, lending a refined authenticity to architectural and design applications.
